PROFESSIONAL OVERVIEW

Self-driven and detail-oriented frontend developer with a strong interest in creating clean, responsive, and user-friendly web interfaces. Eager to begin a career in web development, apply practical skills in real-world projects, and grow within a collaborative tech environment.

PROFESSIONAL EXPERIENCE

Frontend Developer (Project-Based)

Self-Initiated Projects | Jan 2024 – Present

▪ Currency Exchange App

Developed a responsive web app that converts real-time currency values using an external API. Implemented dynamic input handling, responsive layout, and error messages to ensure a smooth user experience.

Tools Used: React.js, JavaScript, Tailwind CSS, API

▪ Password Generator

Created a customizable password generator with options for length and character types. Included a copy-to-clipboard feature and user-friendly design for quick, secure password creation.

Tools Used: JavaScript, HTML, CSS

▪ Weather App

Built a weather information app that fetches and displays live weather data such as temperature, humidity, and conditions. Integrated user input validation and dynamic UI updates.

Tools Used: JavaScript, CSS, API

▪ Form Validation App

Designed reusable form components with real-time input validation for fields like email, phone, and password. Included clear feedback for user errors and success messages.

Tools Used: JavaScript, HTML, CSS

• Food Recipe App

Developed a recipe search platform that fetches and displays food recipes by dish name or ingredients. Features include image rendering, step-by-step instructions, and a responsive, intuitive UI.

Tools Used: React.js, JavaScript, Tailwind CSS, Recipe API
